### Fine Art Printing

For when you need the best print quality available with the largest choice of paper surfaces. All paper types in this category are archival. Best results are achieved with 16 bit TIFF files saved in the Adobe98 RGB color space.

- Pearl and Glossy** Traditional photographic papers.
- Fine Art Rag** Cotton based papers with a matte finish with varying degrees of surface texture. Painterly effect.
- Metallic** High gloss paper with an almost 3D depth. Silver in the paper reflects light to make your print shine.

## Canvas & Metal

**Canvas Only** Real cotton canvas. Print only.

**Canvas Wrap** Cotton Canvas, laminated for protection and longevity, stretched on 1.75" frame.

**Metal** Printed directly onto sheets of metal. Glossy finish. Choice of clear or white coating. Clear coating shows metal grain under image. White coating shows truer color at the expense of the "metal look". Only available in listed sizes.
